

A. S. Hitchcock - 1919 - Book I.

A. S. Hitchcock

Book I.

16294-16859

(W I) British Guiana

16294-16525 W I

16526 begins B.G.

1919 - 1

Boston, Mass.

A. C. Wilchcock

St Thomas, V.I., Oct. 11, 1919

16294 Cenchrus muricatus Spr.

A weed along wharf - rare

Passenger steamer on a trip to
British Guiana. The steamer stopped
for a few hours at Guiana, coming
from St Thomas to Barbados - usually
5 hours. Spent considerable time at
St Lucia. Mostly very comfortable.

16295 Cenchrus ciliaris L.
Weed - common

16296 Galactoclinium argenteum
Weed - frequent (L. Richt)

16297 Eragrostis almaris (L.) Link

Mud near water front
not common

16298 Pennisetum maximum Jacq.
Escaped - common in

16299 Vallea imbricata (L.) Chase

Common
Callal, long grass!

16300 Syntherisma digitata (Sw.) Hitchc

along - frequent

16301 Syntherisma (L.) Link

along ditches &
along gulches

16302 Eragrostis pilosa (L.) Beauv

along ditches & small pools -
along ditches

16303

Chaetochloa setosa (Sw.) Scribn.

Barro Colorado

16304

Syntherisma sanguinalis (L.) Dulac

Barro Colorado

16305

Chaetochloa setosa (Sw.) Scribn.

Barro Colorado - infrequent

16306

Paspalum conjugatum ^{Burg.}

Barro Colorado - common

16307

Chaetochloa setosa (Sw.) Scribn.

Barro Colorado - common

16308

Agave parviflora (Sw.) Beauv.

Barro Colorado - especially in somewhat shady places.

16309 Lasiacis dipetala (L.) Hitchc.
Along road in the hills among
shrubs.

16310 Eragrostis upruncata
Along ditch Schult

16311 Utricularia sp.
Wet, sandy, long, common
(Walt), Ktze.

16312 Chaetochloa sp. (Sw) Scribn.
Among brush - more open
land than 16303

16313 Impatiens capitata
Pair

16314 Sporka sp. (L.) R.Br.
Very common

16315 Utricularia sp. Trin.
Open ground & grass, frequent
Panicum

16316 Panicum adspersum Trin
Spikelets 3, 5 but sometimes
green. The spikelets are prostrate.

_____ (L.) H. & C.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system of equations (1) has a solution for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied.

Nov. 10
16689

Along train - towards Peter Hall
Georgetown

Shrub - low ground - 3 ft

16690

Ipomoea

In water of canal, stems
floating - water level of
canal.

16691

Panicum polygonatum

grows in
low ground along ditch
with *Panicum polyanthum*

16692

Voacifera (acacia)
number 16692

Herbaceous vine - high climbing
fls white - called Bonny-bis
climbed + escaped

16693

Cyperus

Along water ditch - leafy
stems - white after only 2-3 ft

16694

small white
fls. dark.

16695 *Echinoclethra polytricha*
In water in pond. Stem
long decumbent & rooting in
water. 3-6 ft above water

16696 *Zypha*
Water of pond partly submerged
5-8 ft

16697 *Ammanthium spicatum*
Wet along by track 3 ft
annual

16698 *Commersonia*
serotina in *halimolobos*
area - near pond - by pinkish
lavender

16699 *Spigelia?*
Wet along by track

16700 *Baccharis?*
Wet along by track

16701 Tillandsia?
Wet along R. track -
shiny leaves

16702 Cyperus
in very low ground

16703 Phragmites
swampy soil along R. track

16704 Sty. Lemnaceae
Prostrate fls. blue - purple

16705 Cassia
fls. yellow - 4 R.

16706 Sigmaria?
Shrub-like branches
longer leaves, flowers 3-5 fls.
5-luke white, but pink within
tidal flats, among mangroves
fls. white - purple soil
moist

16707 Mallows
Tidal flats among mangroves
shrub-6 ft. fls pale yellow

16708
Shrub 3-4 ft. sprawling
tidal flats fls green

16709 Mimosa?
Climbing over shrubs. Tidal flats
fls white

16710 *Capparis indica*
End of path among mangroves
west side - 8 ft

16711 *Impatiens*
Shrub thick among
fls

16712 *Leucaena*
Shrub 6-8 ft. along by

16713 Apocynae
Succulent stems - flowers
somewhat tinged with blue
2-5 ft

16714 Compositae
Stems along ground - fls red

16715 Cassia
Stems in soil - fls
3-5 ft fls yellow

16716 Convolvulus
Low ground near sea - fls
yellow

16717 Cassia (accidental)
Wet in west. bank along
by 3 ft fls yellow

16718 Solanum?
erect - in - along on hills
prostrate - trailing - fls yellow

16725 *Lychnis*
Large slender - up 2 ft. - basal
leaves, small, yellow
and 5 soil for leaves
Basal leaves, small, yellow
the leaves, small, yellow.

16726 *Convolvulus*
Climbing over bushes - small
green - fls. white

16727 *Convolvulus*
Climbing over bushes - fls. white

16728 *Lychnis* - *Lychnis*
Stems 2-3 ft. - fls. yellow
Fls. numerous, small.

16729 *Lychnis* - *Lychnis*
Stems 2-3 ft. - fls. yellow

16730 *Physalis*
Climbing over bushes - fls. white
+ numerous yellow

16731 Solanum

Fls. pale blue -

the young and
mature fruit

16732 Safford - Still in

fls. - some pale blue
stem or apparently - some
stem's young - seeds to be examined

16733 Lantana?

Fls. - white - some, late stage

16734 Melastoma?

fruit - supposed to be 3 ft.
open ground along track

16735 Euphorbia

16736 Sporobolus

growing in grass - its fruit
purple

18737 *Melolonia*
 Clinging over rocks

18738 *Agave*
 On water - very large
 in fruit only

18739 *Agave*
 Till 30 ft. - very large
 on special branches - of
 fruit - brought down, small
 greenish clusters, showing
 the specimen - some white
 wing brittle -

18740 *Agave* - very
 pale - strong stalk - in water
 the water, leaves branching
 sometimes very small spots
 at ends of branches

Set *Agave*
 some of the plants appear
 to be very small and
 some are very large
 samples are in the same
 patch.

18741 *Agave* - small
 along banks of San Juan

Set *Agave*
 15 miles west of Georgetown
 Nov. 15 *Agave* - very small
 18742 *Agave* - annual
 after frost

16743 *Urtica*
2-3 ft - open ground

16744 *Phytolacca*
Wet meadow

16745 *Staphylea*
Wet meadow

16746 *Lysichiton*
Abundant but climbing
on Andropogon in wet
meadow. 2 to 3 ft

16747 *Solanum*
Tall bush 3 ft

16748 *Phytolacca*?
Wet meadow

16749 *Siroph*
Mud along creek - same
1-2 ft.

16750 *Plant* (sp. name)
Mud along creek - same

16751 *Trichostema*
Mud along creek - same

16752 *Euphorbia*
Mud along creek, same
1-2 ft.

16753 *Salvia* ?
Mud along creek

16754 *Plant*
Mud along creek

16755 *Cypripedium*
Along open bog.

16756 *Epilobium*
Open bog.

16757 *Epilobium*
Wet low ground among
shrubs.

Set

16758 *Juniperus communis*
Along open bog. H.B.K.

Set

16759 *Syntherisma filifolia*
Low ground near sea
at full.

Set

16760 *Andropogon scoparius*
Wet meadow.

Set

No. 15 - (Makareia) on the Coast,
about 20 miles
east of Georgetown

16761 Milk Cherry
Tree 40 ft - very round
fruit oval, black

16762 Sapindaceae
Shrub 10 ft - low, round
fls. red

16763 Mallow
Suffrutescent - 5 ft fls. red
leaves green, round

16764 Erodium?
Herb in sandy soil.

16765 Onopordium
Herb

16766 Rubiaceae
Shrub in wet. Leaves
dark, shiny, aromatic

16767 *Paspalum*
Climbing on shrubs near canal

16768 *Polka grass*
In wet places near canal

16769 *Herposiphonia*
Climbing on shrubs near
canal

16770 *Sporobolus*
Climbing on shrubs near
canal - fruit only

16771 *Eleusine*
In wet places 4 ft

16772 *Stachys*
In wet places, near
canal

16767 *Paspalum*
Climbing on shrubs near canal

16768 *Polypodium*
In field near canal

16769 *Paspalum*
Climbing on shrubs near canal

16770 *Sporobolus*
Climbing on shrubs near canal - fruit only

16771 *Commersonia*
In field 4 ft

16772 *Commersonia*
somewhat woody - near canal

16773 Mint
Mint - fruit, 2 ft

16774 Inflorance
Mint - flower patch

16775 Santal
Along canal - somewhat
shrubby - 2-3 ft fls pink

16776
Shrub 2 ft - along canal
fls white

16777
Shrub 2 ft - fls yellow
along canal

16778
Along canal - 2 ft - fls white

16779 *Arceuthobium*
Climbing - along beach
frequent - usually a massing
of flowers. - 5 yellow

16780 *Malva*
Need a long time to

16781 *Asplenium*
along, can't flower. water

16782 *Marstonia*
Flowering on rocky ground
not sparing of yellow

16783 *Scroph*
along edge of 4-5 ft. deep sand
most white with pink spots

16784
Red - 30 ft. along beach
- only

16782 *Asclep*
Along canal - shrub, 15 ft.
trunk brown, leaves gl. bluish
or pale purple

16783 *Solanum*
Tree, along road
fl. white - fr. orange

16784 *Solanum*
Along road

16785 *Euphorbia (heterophylla?)*
Along road - dark red

16786 *Calliandra*
Shrub on bank, along
road - fl. yellow

16787 *Gynura*
Shrub along street, Sampalwan

10791 *Chamaecrista* polytricha
 In water of canal. From
 long-discriminated & nodding
 most of Vreed-en-Hoop

Set

10792 *Chamaecrista* urinalata
 In water of canal. Root
 3 ft.

Set ^{in part}

(10793) *Chamaecrista*, 18 miles west of Capetown
 10795 *Chamaecrista*
 Shrub - abundant at base
 6 ft - low ground - 5 ft. flowers

10794 *Sporobolus*
Sundana - fls pink

10795 *Trinervium* ^{H. & C.} *altum*
 Large bush - up to 10 ft. at base
 10 ft. - leaves narrow
 base. branching

10796 *Legume*
 small tree - shrub 5 ft
 fls pink - low ground

16797 *Legumin*
Woody vine - fls pink & white

16798 *Legumin*
Scandent - common
fls yellow

16799 *Legumin*
Scandent - common
fls yellow

16800 *Panicum pilosum* Sw.
Scandent

16801 *Smilax* *smilax*
Scandent

16802 *Legumin*
Shrub 10-15 ft fls pinkish

16807

Malva

Red along road - 1/2 ft. thick
mural

16808

at the mouth of the stream
12 inches 1/2 ft. thick

16809 *Arctostaphylos*
Along ditch in field

16810 *Arctostaphylos*
Along ditch

16811 *Arctostaphylos*
Along ditch in field

16812 *Arctostaphylos*
Sand near sea

Set

16813 *Sarcocolla* *torreyana*
waxen - Base brownish
white, yellow in center, light
greenish

Set

Note to short
branches on lower
part of stem

16814 *Sarcocolla* *argentea*
waxen white, greenish

Set

16815 *Impatiens* *maculosa*
Along the creek in open woods
near the creek. Small
plants, scattered
about. Usually seen
the whole thing very to give
local name, *maculosa*

Set

16816 *Impatiens* *maculosa*
Same place as above
in single specimens.

Set

Impatiens type
helobium Nees.

16817 *Impatiens*
Same place as above
young plants
seen

Set

May New Amsterdam - Road
west of town

16818 *Helianthus* *scaberrimus*
induratus, smooth, leaves - well
developed, Annual, 2-3 ft.

Set

16819 *Helianthus* *scaberrimus*
Same place as above
up to 4 ft. tall, with black, smooth
the whole plant, smooth, more
open, straight, with some drooping.

Set

16820 *Helianthus* *scaberrimus*
Same place as above
about 3 ft. tall, smooth, more
is brown, smooth, smooth
the whole plant, smooth.

Set

10821 *Stenotaphrum secundatum*
Grass at edge of mangrove

Set

10822 *Stenotaphrum*
Tall 2-3 ft. dense grass, young
gl. yellow - scattered white

10823 *Stenotaphrum*
Tall 2-3 ft. dense mangrove grass
fruit small with red spots

10824 *Stenotaphrum*
Vine on mangrove, leaves to
5 ft. long

10825 *Stenotaphrum*
Tall 2-3 ft. dense grass, young
with small white spots

10826 *Stenotaphrum*
Tall 2-3 ft. dense grass, young
with small white spots

16827 *Frax*
Site field. Numerous colonies seen
under logs, some beneath cedars
as much as 2 feet. Aspect of trunk
brown. Short hairs. All points seen
at distance. At distance, very frequent
magnificent. Other points, under
the trunk, dropping.

18928 *Phacelia*

18830. *Salix glauca*
T. Gray collected.
The same as No. 18829.
